The first half of the course should be set at the second round height, with the second part of the course set at jump-off height. The second half being timed as the jump-off. The jump-off will follow straight on from the first part of the course without stopping. All team and individual members (unless the individual is eliminated in first round) will go forward to the second part of the second round (jump-off) unless eliminated in the first half. The second half will be classed as both the team and individual jump-off. This applies to teams and individuals.
